Hello Mrs. Carter,

I wanted to thank you for yesterday's seminar in Louisville, KY. As I had mentioned in the seminar yesterday, I have over 15 years of workforce development experience including job developing but was new to Goodwill of KY. I walked away feeling refreshed and excited about my new job as an Employment Technician. I have attended numerous of seminars and trainings and yours was the best. I really appreciate your spirit and expertise. I am looking forward to more of your seminars and I am interested in your books.

Take care,  
Zarifa

Ms. Carter:

Just a little note to say "Thank You." The training provided far more information than what was listed on the advertising flyer. I was honored have sit under your great tutelage to gain a wealth of practical and much needed information. I know the information learned will immediately be put to great use.

Ms. Carter, I pray that you continue to be a blessing in the lives of those you come in contact with. Again, thank you.
